27 April 2016,

Dear Parents/Guardians,

The purpose of this letter is to inform you about the changes that will be happening with our parading location for the balance of the 2015/16 training year.

While it is unfortunate that we will be changing our LHQ location that we have had the luxury of parading at since 1974, it is necessary for our sponsor (Branch 55 Royal Canadian Legion) to find a new location. When they do find a new location they have every intention to provide us space in their new facility. In the interim we will need to be patient and parade at a temporary location.

We have found a location. Old St. Paul's Anglican Church has very generously offered to provide us a temporary home for the balance of this training year, and the 2016/17 training year if necessary. They are also offering us the use of this location free of charge. Old St. Paul's Anglican Church is located at 721 Dundas St. Woodstock (closest intersection is Dundas St. and Huron St.).

Starting next Wednesday May 4<sup>th</sup> we will conduct our Wednesday LHQ training at Old St. Paul's as well we will be having our Annual Ceremonial Review at Old St. Paul's. It is important that Cadets are not left unattended at this new location so I request that parents/guardian do not drop off their children earlier than indicated. They will not be granted access to the building until Cadet Staff arrive, and I do not want them loitering on Church grounds.

Effective May 4<sup>th</sup> no personal are permitted in/on the property at 576 Brant St. Woodstock unless specifically directed by 2833 Officer Staff.

Updates will be posted on both our Cadet Corps web site [www.woodstockarmycadets.ca](http://www.woodstockarmycadets.ca) and Facebook page 2833 Oxford Royal Canadian Army Cadets as new information happens. Thank you for your patients and cooperation through this transition. Should you require further information or clarification please don't hesitate to speak to me Wednesday evenings.

Sincerely,

Captain D.A. Arbuckle, CD  
Commanding Officer
